First Name Dounia  
Last Name Jouron

Company Name Adyen

My activity in 4 words:

1. Payment
2. Technology
3. Partnerships
4. Retail

**My background and what I can bring to CCI FRANCE UAE services and activities:**

I've been working in partnerships for the past 14 years, always in the tech industry. The products and services I had to deal with are dedicated to retailers and luxury brands. I'm able to understand their needs and expectations and to find the right way to support them.

I've been working in France before and coming to the middle east was initially to duplicate success gotten in Europe. I've been managing teams across regions with strong appetite for creating a strong and solid network of people ready to make some significant changes for themselves and the others.

I'm an expert in payments but generally speaking my motto is to drive success and support. I've been also teaching during 6 years in the university when I was in Paris as I also believe a lot in new generation - including generations of entrepreneurs.

**My added value in the Board:**

I'm a person who definitely believe in the power of alliances and relationships.

I work with several companies in the tech industries, retail space and I have multiple connections across the Middle East and Europe. I do see value connecting people, finding how I can help them through some valuable relationships and I like using my network to support companies and entrepreneurs. I'm also a person recognized in its sector and can access to high level people, all with the right mindset and dedicated to their industries. The projects realized in the past years as well as my personal connections can be a great asset for CCI members, interested in extending their network and meeting the right people at the right moment.

**Why you should vote for me:**

I've been in the Middle East for the past 3 years and have been involved in multiple events and sessions with CCI. I understand the value of this organization and I'm ready to be part of it to support its network.

My French background, combined with a middle easter culture, help me to understand the local nuances and to design plans and projects useful for all. I'm also a person used to dedicate time in long term project, always ready to improve the existing and to sharpen ideas with others.

On a personal level, I'm a person ready to dedicate time and to connect the dots. I'm passionate about alliances and how to make them always bigger and greater.
