Vigneron****TotalEnergies Marketing Middle East****My activity in 4 words:**

1. Energies
2. Partnerships
3. Green Tech
4. Innovation

My background and what I can bring to CCI FRANCE UAE services and activities:

I started my career with TotalEnergies in 2004, where I have gained experience through a variety of roles and environments - from finance team in Brussels, Retail development in The Netherlands, Commercial and Business development in Singapore, board member in Denmark, then in Brussels. Finally, to become Managing Director based in UAE covering 14 countries in the Middle East and Africa with 240 team members.

TotalEnergies has been present in the UAE for more than 80 years. Our ambition is to be a major player in the multi energies value chain – in line with UAE’s ambitions and the transformation of the energy landscape. To satisfy the energy demand, deliver cleaner energies, with less emissions and competitive costs we drive and foster Innovation through technology, digital, and artificial intelligence – and we actively support the development of companies and initiatives in these areas.

My added value in the Board:

TotalEnergies continuously develops a thorough understanding of the UAE energy context and strategic development: key stakeholders, business trends and opportunities, regulatory framework and policies. I can support the board and activities of the CCI through sharing knowledge of the energy sector in the UAE and the local economic environment and its strategic orientations but also to partnership with new companies and onboard not only the GM but the key staff members of the companies.

One of the main challenges of the CCI board team in the coming year will be to build on the strengths of both FBC and FBG to develop a common vision and road map. I will bring to the board my proven experience in management and strategic alignment – key to achieving such challenge. And bringing our network to improve our penetration towards local companies with more than 1000 local customers in Industry and Mobility.

Why you should vote for me:

Through my role within TotalEnergies, I can support in identifying and fostering potential opportunities for the actors within the overall energy sector but also Green tech or supporting start-up; support the creation of links between CCI-members and key stakeholders within the UAE; and play an active role in continuously adapting and improving the service offering of the CCI-France-UAE to its members.

I also wish to bring to CCI France UAE my enthusiasm, experiences and network: I am enthusiastic and engage, connecting with new people, developing new topics, and creating opportunities is what drives me
