WORKING EXPERIENCE

Procter & Gamble - Blois (France)

July 2023

- Analysed the quality of final products and bulk
- Optimised the library of final product

This internship allowed me to develop my teamwork skills and my capacity to give feedbacks

Association Insignis - Clermont-Ferrand (France)

November 2022 - June 2023

- Organised english lessons for four middle school students

This experience helped me to develop my oral communication skills and Office Pack skills

Rothamsted Research - Harpenden (England)

April 2022 - June 2022

- Synthesised organic molecule
- Searched for alternative synthesis

This internship allowed me to improve my English skills and chemistry knowledge.

EDUCATION & QUALIFICATIONS

Chemistry Engineering School - (Nanomaterials, Polymers, Composites)

2022 - present

Sigma Clermont - Clermont Ferrand (France)

Characterization techniques (IR, UV spectrometry, DRX, Calorimetry, ...)

Proprieties analysis (Hardness, glass & fusion temperatures, absorbance, ...)

Manufacturing process

Associate's Degree - Chemistry

2020 - 2022

IUT Orléans - Orléans (France)

Science Baccalaureate

2017 - 2020

Lycée Claude de France - Romorantin-Lanthenay (France)
