

RESTART YOUR BUSINESS WITH BV

SAFEGUARD ASSURANCE PROGRAM

The priority for all companies is to get back to work as quickly as possible and with appropriate health, safety and hygiene conditions for their employees and their clients:

- Companies and public authorities with facilities open to the public need to demonstrate to their customers and users the implementation of the required protective measures.
- Companies in the industrial, construction and services sectors need to be able to protect their employees when they are back at work, whether on site or in their offices.

RESTART YOUR BUSINESS WITH BUREAU VERITAS

Businesses planning to restart their operations will face significant challenges to safeguard their employees and clients from health and safety risks related to the spread of COVID-19. Organisations will also need to be able to protect and build trust with their employees and clients, as well as promote transparency and credibility to society in order to reoperate efficiently.

FOR FOOD, RETAIL & HOSPITALITY

Provide reassurance to the end-consumer by verifying each individual hotel, restaurant and shop.

FOR PUBLIC SPACES

Review the protective measures in place and verify that they are properly implemented in premises receiving the public including schools, universities, public transport, gyms etc.

FOR PRIVATE SPACES

Support private companies in their re-opening of businesses by verifying compliance with protective measures at industrial and construction sites and commercial offices.

HOW DOES IT WORK?

Define the list of Control Points

You can either use Bureau Veritas' **ready-to-use checklists** or **customise them with the support of our specialists** according to your specific needs. A self-assessment questionnaire with these control points will be completed by each of your facilities.

Conduct independent audit

A site audit will be conducted by an experienced Bureau Veritas Health and Safety professional to evaluate the effectiveness and application of the measures/protocols implemented at facility level.

Grant the label

At the end of the audit, the facility will have 10 working days to rectify and close any Non-Compliant findings. When findings have been addressed, the facility will be granted a **Bureau Veritas' SafeGuard label** to promote this achievement.

Global consumer website listing

Your facility will be listed in an official global consumer website where the data will be available for you to easily connect your systems with them and use the information in your own websites or applications.

Contact our Bureau Veritas team to discuss your needs and to find out more about our SafeGuard Assurance Program
