

PRESS RELEASE

June, 2022

Rohlig Australia expands contract logistics operation with new warehouse opening in Perth Airport, WA.

Perth, June 2022.

Rohlig Australia has just opened a new warehouse in Perth, Australia. The 2.500 square metre facility will enable Rohlig to provide more scalable storage options and solutions, strengthening its integrated logistics services and offerings for customers across the country.

Strategically located right next to Perth Airport, the new facility has easy access to key locations, being only 15 kilometres from the central business district and 30km to the Port of Fremantle.

“It is an exciting time for Röhlig Perth to further develop and broaden our service provision to our customer base. We are delighted to extend our contract logistics presence as a response to increasing customer demand in line with a growing economy and logistics industry in Western Australia”, said Michael Cosmelli, Branch Manager, WA.

The property comprises 2.500sqm of the warehouse area, 300 sqm of office space, one recessed loading dock, seven roller shutter doors and a canopy extending to 50 metres.

For 50 years Rohlig has been a presence in the Australian market and now has six branches in Australia and three in New Zealand with more than 250 employees across both countries.

“We are thrilled to be opening our new warehouse in Perth,” stated Thomas Hansen, CEO of Rohlig Australia & New Zealand. “We have chosen to make a significant investment in our own network in Australia and New Zealand in order to meet our customers’ growing needs. A big “Thank You” to our Western Australia customers for their support over the past years, we are going to serve them even better now”.

Röhlig Logistics

Röhlig is an owner run freight forwarding company that offers logistics solutions in the field of sea freight, air freight, project logistics and supply chain management. The family-owned company was founded in 1852 in Bremen, Germany. Today, more than 2,300 people in 35 countries are part of its global network.
