

## EXPRESSION OF INTEREST FOR OFFSHORE AIR TRANSPORT SERVICES BY HELICOPTERS

**Eni Rovuma Basin B.V., Mozambique Branch, on behalf of Eni Mozambico S.p.A.**, invites interested companies to submit their *Expression of Interest* for the provision of **AIR TRANSPORT SERVICES BY HELICOPTERS** to support operations in Area A5-A in Mozambique.

### SCOPE OF WORK

The scope of work consists of provision of offshore Air Transportation Services by helicopters, solely use, as listed below:

- Commercial transportation of passengers and/or internal cargo of the Company, its Customers, its Agents, Contractors and Assignees within Company's concession areas, from/to Main Operating Base;
- Medical Evacuation, in order to facilitate emergency medical assistance, where immediate and rapid transportation is essential (e.g. Medical personnel or Company's injured personnel) according to Company's Emergency Response Plan;
- Limited SAR (Search and Rescue) only to provide air support to the Company's personnel who could be on distress or imminent danger inland or at the sea. For Limited SAR the helicopter shall equip with HERDS (Helicopter Emergency Rescue Deployment System) /air deployable linked raft or equivalent.
- Emergency Flights, when a technical issue requires the urgent transportation of specialists and/or equipment to/from the offshore installation

Service shall be provided by means of two (2), primary helicopters at exclusive use by the Company during the Contract period.

Operating Main Base (to be confirmed) will be Nacala Airport (FQNP/APL) or Nampula Airport (APL/FQNP) based on international flights connection availability.

The Helicopters shall comply with the following characteristics:

- Multi turbo-engine helicopters;
- Certification Cat A/ Performance Class PC1 or alternatively, a specific approval from the competent Civil Aviation Authority to the Contractor and/or to the area of operation for performance Class 2 with the use of exposure time;
- Passenger seating configuration approved for a minimum of 10 seats and a maximum of 14 + 2 Pilots Crew;
- Certification basis: FAR / JAR / EASA CS 27 or 29;
- Capability to land on helideck with "L" value 10 ton, and "D" value 20 m;
- In addition to their primary role, the aircrafts should feature quick conversion kits to:
  - carry medevac equipment, two stretchers
  - carry internal cargo

both features shall have approved (NCAA (National Civil Aviation Authority) approval or STC (Supplement Type Certificate) cabin configuration.

The expected spud-in date of the 1<sup>st</sup> well is in Q4 2022, and Contractor shall be ready to operate by August 01, 2022 – for a firm minimum contract duration of 3 (three) months, with possible extension options for further two periods of 1 (one) months each.

### DOCUMENTATION REQUIRED

Companies interested in this invitation may submit their *Expression of Interest* by providing the following mandatory information and documentation:

#### I. Technical documents:

- a) Any relevant references for previously executed projects of similar technical characteristics and magnitude;
- b) A valid Air Operator Certificate, including operations approval for the type of services required, available and to be submitted at the moment of submission of the expression of interest;
- c) Evidence of having a considerable experience in the offshore environment of operation involving helicopters compliant with the above listed characteristics;
- d) Evidence of the Continuing Airworthiness and Maintenance Organization Approvals for the offered aircrafts;
- e) Evidence of the Air Operator having in place and maintaining:
  - A Compliance monitoring / Quality System applied uniformly throughout the entire operation (to include flight operations and maintenance), to monitor compliance with, and the adequacy of, procedures required to ensure safe operational practices and continuing aircraft airworthiness;
  - An Aviation-oriented Safety Management System using a proactive and reactive management of safety, which shall interface with the Quality System. Both systems shall be documented to ensure traceability, standardization and communication.
- f) Safety Management System (OHSAS 18000 or ISO 45001) and Environmental Management System (ISO 14001) documents proving the company compliance with international standards;
- g) Quality Management System certifications and/or certificates proving compliance with international Quality Standards (ISO 9001:2008);
- h) Company's HSE performance including events and incidents in the last three years. Total Recordable Incidents Rate (TRIR) shall be provided;
- i) Any other information that will contribute assessing the capabilities for fulfilling the scope of work.

#### II. Administrative documents:

- a) Scanned certified copy of the Trade Register, Legal Entity name and contact person for receiving qualification package and other relevant information from Eni Rovuma Basin

B.V.;

- b) Last three years Financial Statements and Annual Report including Balance Sheet, Profit and Loss and Cash Flow Statement. These documents must be provided for the Company Group (if applicable), and also for the Company's Mozambican registered entity that will enter into the subject contract;
- c) Company's registration in Mozambique. In case your Company is not already registered in Mozambique, please specify if you would be willing to promptly register in Mozambique and specify the respective timeline;
- d) Company and Group Structure with the list of major Shareholders and ultimate beneficiaries (if not listed in the stock exchange);
- e) In case you wish to participate in the Expression of Interest as a consortium or as a joint venture, information about each member of consortium or joint venture and role of each participant in the potential project. Such intention to form either a consortium or a JV, must be supported by an Agreement or "Memorandum of Understanding" duly signed by each entity in the group.
