

Club Debussy
Opera National de Varsovie

January 2023

**A proposal of collaboration between
Teatr Wielki – Polish National Opera
and the French-Polish Chamber
of Commerce and Industry**

Symphonic season

We would like to launch a new segment with exclusive symphonic repertoire. The goal is to direct the spotlight to the orchestra performing on stage thus building a higher level of performance through new repertoire.

This concert cycle creates a great opportunity to invite internationally renowned soloists and conductors.

It is important to make clear that this project is not meant to compete with the Warsaw Philharmonic or Sinfonia Varsovia, both highly specialized in symphonic music, but to give the audience a chance to present the National Opera's Orchestra and Chorus in a different light, and in a new repertoire.

Over the last years, Polish culture has been receiving growing support from Poland's prominent business-people. Once seen as a realm reserved for the artists, artistic creation is now considered a domain of our economic life. By collaborating with partners from the business sector, the opera house is able to create a space where the most valuable initiatives and artistic developments come together.
