Mr. Satish Sawant, Director - Business Advisory, SKP Business Consulting LLP gave his valuable insights on Supply Chain Management (SCM) and also highlighted a case study on the importance of SCM. The workshop concluded with very interesting question and answers from the members who were present there.

The workshop was then followed by an introduction and safety instructions for the site visit of the ARaymond factory. The factory is a French industrial limited partnership with International dimension, which was created in 1865.

It manufactures and offers products for fixing in the fields of automotive, health, agriculture, renewable energies and industry. It was interesting to know that almost all International car manufacturers are its customers and their network is an International leader in the assembly expertise by clipping & bonding and fluid connection.
