

PEDIDO DE MANIFESTAÇÃO DE INTERESSE (EOI) PARA

PRESTAÇÃO DE SERVIÇOS DE ENGENHARIA E CONSTRUÇÃO PARA REMODELAÇÃO DA VEDAÇÃO DA SASOL PETROLEUM TEMANE, INSTALAÇÃO CENTRAL DE PROCESSAMENTO DE GÁS

REQUEST FOR EXPRESSION OF INTEREST (EOI) FOR THE

PROVISION OF ENGINEERING AND CONSTRUCTION SERVICES FOR UPGRADE OF THE PERIMETER FENCE AT SASOL PETROLEUM TEMANE, GAS CENTRAL PROCESSING FACILITY SASOL

Sasol Petroleum Temane Limitada (herein after referred to as Sasol) owns the Petroleum Production Agreement (PPA) Unincorporated Joint Venture (UJV) in Mozambique. Under the PPA, Sasol operates facilities in Mozambique, including a gas processing facility at Temane, in southern Mozambique, namely the Temane Central Processing Facility (CPF). The CPF, operated by Sasol, processes production fluids from the Temane and Pande onshore gas fields.

A stainless-steel diamond mesh perimeter fence of approximately 3 km in total length was erected at CPF including an electrical fence as part of the original scope of the facility. It was envisaged at the time that such a fence would be enough to keep out all unwanted elements, prevent unauthorized removal of assets and enable entry and exit from the facility through manned check points. However, recent assessments have indicated perimeter fence weaknesses. Sasol Petroleum Temane aim to replace the existing perimeter fence with a solid wall fence (either concrete or brick) and upgrade the electrical fence to provide an effective protection of the Central Processing Facility.

For the purpose mentioned above, interested Engineering and Construction Contractors will need to provide the best option for the solid wall fence including the perimeter fence upgrade requirements and prove their appropriate ability and experience to successfully design procure and execute in compliance with the technical requirements, standards and codes applicable to oil, gas and petrochemical industries, whilst complying to local content requirements of the Republic of Mozambique.

This EOI is intended to solicit information required to enable Sasol to identify and assess suitably qualified and experienced Contractors, preferably registered or established and operating in the Republic of Mozambique.

Sasol hereby invites eligible contractors to indicate their interest to bid for the Engineering, Procurement and Construction Services required. Interested Contractors should provide appropriate information showing that they have the required qualification(s), ability and relevant experience to perform the identified Work.

The following essential documentation and information is, therefore, required:

1) Local Content

a) Company Registration:

b) Provide detail of the Engineering Contractor's ownership structure (percentage shareholding held by shareholders as well as a description of the identity of shareholders).

c) Indicate the percentage of Mozambican labour, staff and management available in the company.

d) Provide Mozambican facilities address;

2) Financial information for the last 3 years, current year and a forecast for next year (Turnover, net profit and total equity reserves).

3) Provide accredited quality, health, safety and environmental management systems as well as all applicable accreditations.

4) Provide HSE statistics for the last 3 years;

5) Provide company profile and relevant experience:

a) Experience in multi-disciplinary engineering design projects;

b) Experience in modification/concept/design of engineering projects;

6) Provide CVs of personnel who have experience in work of this nature.

7) Demonstrate the Engineering and Construction Contractor's ability to conduct business in English language.

8) Provide policies, procedures and software systems to manage all aspects of Engineering Design, including change control tracking, quality control tracking and revision control of design documentation.

9) Project Management Services:

i. Provide a list of recognized management systems that would be used to manage all aspects of Engineering Design, Construction, including Project Management functions, Engineering Management, Planning and Scheduling, Cost Control, Quality Assurance and Quality Control.

10) Prove capabilities to provide Deliverables related to:

i. Engineering, Procurement and Construction of solid wall perimeter fence;

ii. Engineering, Procurement and Construction services required to upgrade the electrical fence including alarm systems;

iii. Provide preliminary Risk Assessment (RA).

Note: Experience with and compliance to Sasol Standards and Specifications would be advantageous.

Potential bidders will be selected in terms of Sasol's evaluation criteria (as determined by Sasol), considering the details that the Contractor supplies, and all other information (including all risks

associated with this project). Potential bidders will be selected by Sasol at its sole and unfettered discretion.

Submission instructions:

Interested and eligible Contractors should submit the required documentation, to the following:

■ E-mail address: PPACCommercialProjects@sasol.com;

■ Description of Project: Sasol Petroleum Temane Perimeter Fence Upgrade;

■ Closing Date: 23rd August 2022;

■ Closing time: 2:00 PM (UTC+02:00) Maputo, Mozambique

• **Please note that each email should contain no more than 5MB.**

• **We are not able to open a files, only Zipped files.**

• **Your expression of interest response should include a summary sheet indicating the evidence document of each item requested, for easy evaluation.**

Interested and eligible Engineering and Construction Contractors should note that this request by Sasol is aimed solely at requesting information required by it to enable future decisions regarding the Engineering, Procurement and Construction and selection of prospective bidders. It does not, in any manner, indicate any intention by Sasol to enter into further discussions with any service provider which submits information and expresses interest to participate in this process, or to enter into any contract or other commercial relationship between Sasol and such service provider, nor does it constitute an undertaking by Sasol to award any contract to any of the respondents.

Responses by Sasol will only be made to short-listed prospective bidders and Sasol may request further information from such identified bidders. Sasol may also arrange for auditing of information that has been provided by a respondent pursuant to this EOI.
