

Celebrating 25 Years of Global Impact with TeamWork!

Since its inception in 1999, **TeamWork has been dedicated to empowering clients through digital transformation**, enhancing their competitive edge in diverse markets. Our vision revolves around being a steadfast global partner, offering pragmatic solutions, and maintaining close geographical proximity through our expansive network of **27 offices worldwide**. Whether serving major international accounts or medium-sized enterprises, our commitment remains unwavering.

The journey of TeamWork USA started in 2017 from Boston, with a firm dedication to sectors including aerospace, pharmaceuticals, biotechnology, luxury, services, and manufacturing. Our North American presence boasts a robust team of over 60 professionals in the United States and 90 in Canada. Globally, our workforce exceeds 1,200 individuals, ensuring comprehensive support across a spectrum of expertise on a worldwide scale.

At TeamWork, our suite of services is designed to orchestrate 360° operational optimization for businesses. Whether through digital, human, or organizational solutions, we tailor our approach to align seamlessly with the unique objectives of each client. Renowned for our flexibility and responsiveness, TeamWork USA has consistently delivered impactful results, as evidenced by our remarkable 30% growth in 2023.

Our 5 expertises:

- 1. Management Consulting:** [Tomorrow by TeamWork](#) is a management and organization consulting firm that supports its clients in their **transformation projects**, from their strategy definition to their operational implementation.
- 2. Business Solution:** Deploy **SAP solutions** with unique know-how and unique functional and technical experience. Our teams of experts will take on your projects, whether they involve migration to S/4HANA, BW on HANA or BW/4HANA, implementation of on-premises and cloud solutions such as SAP S/4 Cloud, integration of new technologies, or the design of technology platforms with a major cloud component. Implement or extend your **SAP ERP**, and manage your **Supply-Chain risks**.
- 3. Data & Analytics:** Harnessing your data for informed decision-making and **improved performance** through advanced analytics tools.
- 4. Technology Platforms:** Comprehensive technical support, from **database management** to hybridization of architectures towards the cloud.
- 5. Global Delivery Center:** 24x7 activity in **“follow the sun”** mode. (9 service centers worldwide) Global support across all time zones, serving your businesses regarding Incident Management, Cybersecurity, Change Management, Tool outsourcing, and more.

We uphold a set of core values that encompass humanity, flexibility, proximity, and trust. Our exceptional retention rate, which surpasses industry standards in the IT services sector, underscores our dedication to our employees and our relentless pursuit of service excellence. With a team of devoted experts poised to meet your every requirement, we are prepared and enthusiastic to support your digital journey!
