

Belgrade June 2020

Dear members,

Traditionally, every year at this time, our member **alliance international media** is preparing a new edition of:

Business Partner France

This special edition will be published to mark the occasion of France's National Day, Bastille Day, on 14th July 2020.

In both print and digital format, it will be covering the large number of activities conducted throughout the course of 2020, both by the Embassy of France and the CCIFS, with the aim of improving bilateral relations between France and Serbia.

Considering our level of satisfaction with our long-term cooperation with our member company *aim* – both due to the high quality and authenticity of presentations of bilateral relations between the two countries, and due to the expectation that this publication will attract over 50,000 readers in the country, the region and around the world – CCIFS will once again this year participate in the preparation of this special edition through interviews and articles covering our chamber's activities, projects and plans.

This edition would also provide an opportunity for your company to familiarise the general public with your operations and business results achieved, but also the cooperation with the French business community, so do not hesitate to participate should you be able to.

For further information on your participation in this exclusive publication, please do not hesitate to contact the aim editorial team: Mrs Maja Vidaković: m.vidakovic@aim.rs; (381 11) 2450 508.

With sincere regards,

Sanja Ivanic
Director
CCIFS
