3DEXPERIENCE®

3DEXPERIENCE® powers our brand applications... ..for 11 industries

Our purpose

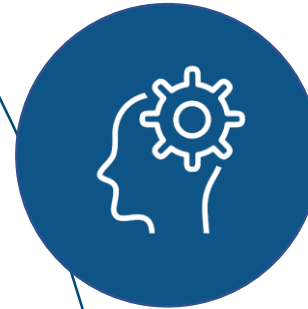

“
Dassault Systèmes provides business
& people with **3DEXPERIENCE®** universes
to imagine sustainable innovations capable
of **harmonizing product, nature and life.**
”

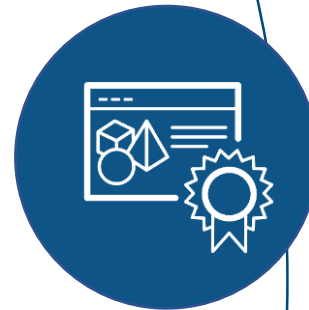

Sustainability is part of our DNA

**WE HAVE DEFINED 3 PILLARS TO GUIDE US
IN OUR SUSTAINABILITY STRATEGY**

HARMONIZE the portfolio
We focus not only on providing the tools,
but also the inspiration for our customers
to innovate sustainably.

EXPERIENCE the change
We strive to “walk the talk”
and embed sustainability
in everything we do.

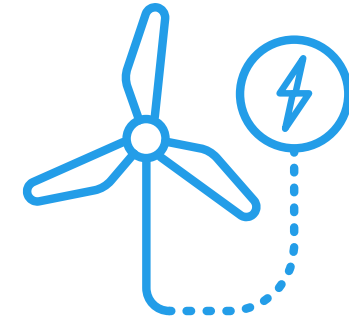

COLLABORATE with stakeholders
We aim to work in partnership
with customers, employees,
and other stakeholders.

VIRTUAL TWINS: A SNAPSHOT

Virtual twins are used to model complex systems, from cars to cities to human hearts, and simulate their functioning with a very high level of accuracy.

They allow the user to go directly from a disruptive idea to creation, rather than spending the years it normally takes to prototype and incrementally improve on existing designs.
