## NATIONAL CONVENTION OF JCI POLAND

3-8 OCTOBER 2019

GALA DINNER - 5TH  
OCTOBER

Dear Partners,

The National Board of JCI Poland would like to cordially invite you to the upcoming National Convention of JCI Poland which shall take place in Wrocław on 3-8 October 2019. It is a special event for us as we shall celebrate 30 years of JCI Poland's existence after the major economic shift in Poland's history.

We are expecting several international guests, including international diplomatic officers as well as entrepreneurs - open to a dialogue and new cooperation opportunities.

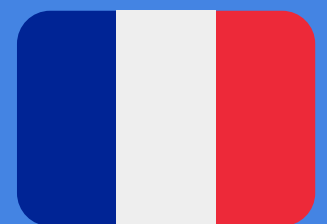

We are aiming at making this event the platform for international networking and enhancing friendships as well as the cultural and business exchange amongst young active citizens, business chambers and institutions. Several international guests have already confirmed their participation in the conference - we hope that you will become a part of this international vibrant group.

We would happily welcome you at this event - we believe this will lead us to realize the common goal of building international relations in JCI and in business.

We are looking forward to meeting you in Wrocław.

Sincerely,

Joanna Mamczur  
National President of JCI Poland

### Conference theme: Leadership in uncertain times

The contemporary world becomes faster and faster. And with every day - less predictable. Not only in politics - also in the economy.

**Technologies get old quickly, employees retention rates are much lower** than two decades ago due to new market opportunities and the subsequent employees rotation trend. People have new ways of defining priorities in their lives compared to previous generations. The world changes.

**Company culture becomes a competitive advantage and bad leadership can hit the performance of your company unexpectedly.** Luckily, new business frameworks and philosophies show up, with more and more empowerment addressed to the coworkers.

Therefore, **let's learn together about agility, holacracy, about new trends and methods** in order to help your company resist the pressure of the change and succeed.

## WROCLAW: CITY OF IT & TECH

One of the fastest developing locations in Poland, growing location of international business, with significant presence of DACH countries (Germany, Austria and Switzerland). Area of production and outsourcing (BDM) services.

What does VUCA mean?

It is an acronym for:  
**V**olatility  
**U**ncertainty  
**C**omplexity  
**A**mbiguity.

Today's world is faster and faster. It became so complex, that we can not foreseen all the confequences of our decisions - nor can we predict all circumstances. Nevertheless, we have to cope with such an enviroment and be able to succeed within.

### ABOUT JCI

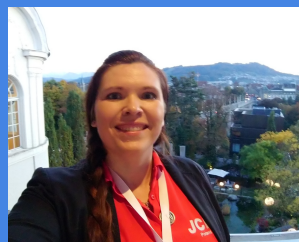

JCI (Junior Chamber International) is a nongovernmental organization for developing young leaders and entrepreneurs.

Founded 1915 in the United States, JCI now has about 160 000 members in over than 100 countries worldwide. JCI is also a partner of United Nations, helping in reaching Global Development Goals. It's a place where friendships are made at the occatson of organizing projects that have a positive local impact.

On local level JCI chapters provide help to develop its members personally as also their businesses. JCI Poland was founded as the first chamber behind the „iron curtain”, in 1989. For many, JCI was a first window for internationality in a rapidly transforming country.

During our 30-years anniversary celebrations, we would like to reunite and create new foundations for the further international growth.
