Bound by knowledge

1930

Første store projekt, hvor en udvidelse af H.C. Ørstedsværket projekteres.

1944

Projekteringen af 6.000 beskyttelsesrum til i alt 300.000 borgere går i gang.

1999

Indvielse af Den Sorte Diamant - et af vores første store ikonprojekter.

2010

Bygge- og anlægsarbejdet til Amager Bakke påbegyndes - Danmarks største affaldsenergianlæg

2015

Vi er med i byggeriet af BI04, Amagerværkets nye biomassefyrede blok.

2021

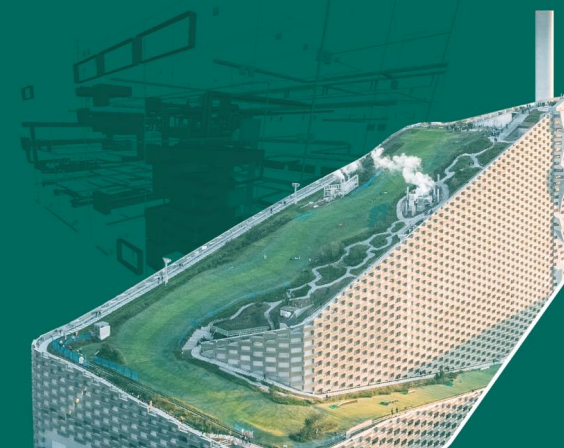

Vores ekspertise inden for træbyggeri bliver sat i spil ved opførelsen af Danmarks højeste trækonstruktion TRÆ i Aarhus.

2022

Med Reduction Roadmap er vi med til at vise, hvordan byggeriet kan leve op til Parisaftalens klimamål.

2023

Vi er med til at udvikle konceptet Living Places, der sætter nye standarder for, hvor lavt CO₂-aftrykket kan blive i boligbyggeri.
