

# A world leader in the Energy and Services sector

**NUCLEAR EXPERTISE AT EQUANS**

# Equans for Nuclear Industry

Positioned across the entire value chain, throughout the life cycle of nuclear installations and sensitive environments, EQUANS offers a wide range of services locally, combines hyper-specialized expertise and addresses scale-up projects first and worldwide.

**50**

Years of experience

**4,500**

Experts worldwide

**4** countries with nuclear local entites

**550 M€**

Turnover 2023

In-house Nuclear training centers

Major references in more than

**10** countries

« Dedicated expertise to serve the safety and performance of your sites »

**A transversal brand dedicated to the nuclear industry for international large projects**

# Delivering hyper-specialised expertise for nuclear industry

Backed by 50 years' experience, our nuclear experts on Engineering, HVAC & Fluids, Electrical Engineering, Mechanics, Multi-technical services, are also to integrate different areas of expertise to the serve the entire value chain of your projects:

Electrical engineering for nuclear installations construction & operations

Multi-technical services to enhance the performance of nuclear processes

Engineering, Consultancy & Nuclear Safety Training

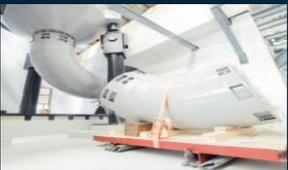

HVAC solutions to complex equations

Industrial multi-technical contractor

Nuclear Logistics & cask fabrication

Mechanical, Piping & Bending solutions for nuclear installations

Multi-sites facility management of nuclear ageing installations

Instrumentation & Radioprotection services

Dismantling & Decontamination of harsh environments

# Equans Group in the Czech Republic

Equans ČR in numbers:

Data valid as of December 2023

- EQUANS Services a.s.
- EQUANS Optimal s.r.o.
- EQUANS REN s.r.o.

# Equans CZ

## A key player in Electrical Installation and Technical FM

### Electrical installation HV

- 110/22kV substations
- Cable networks including cable fixtures up to 110 kV
- Manufacturing of concrete transformer stations
- 200 employees

### Electrical installation LV

- Low voltage installations for Utilities, Industry and Building
- Industrial automation and BMS
- LV Switchboard production
- 120 employees

### TFM

- Complex technical facility management for industry, retail, logistics and office parks
- 180 employees
