

## Elsewedy Electric Strides to Electrifying Tanzania

Elsewedy Electric EA has once again demonstrated its commitment to advancing Tanzania's rural electrification efforts through its pivotal role in several key REA (Rural Energy Agency) projects. With strategic collaborations and a strong focus on quality, the company has successfully supplied critical infrastructure to support Tanzania's growing energy demands.

### **Partnering with China Railway Construction Corporation: A Deal Worth 3 Billion TZS**

One of the most notable achievements has been Elsewedy Electric's successful partnership with China Railway Construction Corporation. This collaboration involved supplying a total of 700 kilometers of cables across two major REA projects:

1. **Project Hamlet:** In this project, Elsewedy Electric EA supplied 500 kilometers of high-quality cables, ensuring reliable power distribution to various regions. The project showcased Elsewedy Electric's capacity to deliver comprehensive cable solutions tailored to meet specific project requirements.
2. **Densification 2C Manyara:** Elsewedy Electric EA provided 200 kilometers of ABC cables, essential for efficient power transmission and distribution. This project further underscored the company's capability to support large-scale infrastructure development in Tanzania.

These two projects, valued at 3 billion TZS, were successfully completed within a 2-year timeframe, reinforcing Elsewedy Electric's reputation for delivering timely and reliable solutions.

### **Collaborations with Central Electrical: Expanding Reach and Impact**

In addition to its work with China Railway Construction Corporation, Elsewedy Electric EA also partnered with Central Electrical on several vital REA projects:

- **ABC Cable Supply:** Elsewedy Electric EA supplied 75 kilometers of ABC cables to Central Electrical, contributing to the efficient expansion of the power grid. This project, valued at \$100,000, further strengthened the company's position as a reliable supplier of essential electrical components.
- **ACSR Cable Supply:** In a separate project, Elsewedy Electric EA provided 150 kilometers of ACSR cables, which are crucial for overhead power lines, ensuring durability and resistance to environmental factors. This project was valued at \$116,000, highlighting Elsewedy Electric's competitive pricing and high standards of quality.

### **Powering Tanzania's Future**

Elsewedy Electric's involvement in these REA projects underscores its unwavering commitment to supporting Tanzania's energy sector growth. By supplying high-quality cables and partnering with leading construction companies, the company has significantly contributed to the nation's rural electrification efforts. These successful collaborations reflect Elsewedy Electric's dedication to powering progress and enhancing the quality of life for communities across Tanzania.

With a focus on innovation, reliability, and strategic partnerships, Elsewedy Electric continues to pave the way for a brighter, more electrified future for Tanzania.
