

DANSK-FRANSK HANDELSKAMMER  
CHAMBRE DE COMMERCE FRANCO-DANOISE

# Life Science Committee

Danish-French Chamber of Commerce

## Purpose of the committee

France and Denmark are leading countries in the life science industry, and we have several members who work directly or indirectly in this sector.

In this committee, our company members are able to exchange ideas, challenges and best practices in the life science industry. We will visit companies, organisations, and other venues linked to this sector and also invite external speakers to share their expertise.

## Working Language

English.

## Frequency

The committee meets 4 - 5 times a year.

## Working themes

The working themes will be agreed upon by the members of the committee and will change between each meeting. Relevant topics may include:

- Attracting talents in the industry;
- Use of AI;
- Geopolitical challenges;
- Regulatory topics;
- ...

## Participants

- The committee is chaired by Pia Møller-San Pedro - SVP, Chief Operating Officer at AFYX
- Companies with relation to the life science industry.

## Price

Participation is free of charge.
