ABOUT US

France Macau Chamber of Commerce (FMCC) was founded in 2008 by Honorary Chairlady Ms. Pansy Ho and local business leaders. FMCC is integrated into a robust network of 125 International French Chambers, supporting over 35,000 members across 98 countries. And it is also connected to a national network of national chambers located in major regions and cities throughout France, which represents over 4,300 CEOs and 17,000 team members. This extensive network enables FMCC to serve as a critical global connector, linking businesses in Macau to opportunities around the world.

FMCC's activities are structured around three core pillars:

- **Events:** Hosting more than 40 events annually, FMCC is one of the most active chambers of commerce in Macau. These events are designed to connect and foster relationships while also empowering businesses in Macau, the Greater Bay Area (GBA), and France with essential knowledge and insights.
- **LeBooster:** This program offers comprehensive turnkey services for company setup in Macau, including office space, legal support, human resources, payroll, and other essential services to ensure a smooth and successful business launch.
- **Services d'Appuis aux Entreprises (SAE):** A diverse range of services including market research, product testing, and meeting arrangements for companies seeking to expand in Macau, Hengqin, and the GBA.
