MESSAGE FROM THE PRESIDENT OF THE BOARD & THE MANAGING DIRECTOR

Dear Members, Dear Partners,

It is with great pleasure that we present the first-ever 100% digital ‘e-membership book’ of the Chamber of Commerce & Industry France-Mozambique (CCIFM). This publication represents a milestone in our journey, bringing together a snapshot of our Chamber and a directory of over 125 esteemed members who make our community vibrant and dynamic.

Since our creation as a Club d’Affaires / Clube de Negocios in 2015, the CCIFM has come a long way. Over the years, we have faced challenges, notably the disruptions caused by the COVID-19 pandemic, but thanks to the resilience and commitment of our members, we have consistently grown year after year. Today, we continue to expand our initiatives, from organizing business missions for French companies exploring opportunities in Mozambique, to hosting a variety of events that foster networking, knowledge sharing, and partnerships throughout the year.

The Board of Directors and Management team remain dedicated to strengthening the Chamber’s governance and optimizing the services we provide to our members. In an ever-evolving economic environment, our mission is clear: to deliver reliable information, promote Franco-Mozambican economic cooperation, and create meaningful business opportunities for all our members.

We are proud of this first edition of the membership book, which not only reflects our history and achievements but also symbolizes our ambition for the future. We hope it will serve as a useful resource and a source of inspiration for building stronger connections within our community.

On behalf of the Board of Directors and the Management team, we thank you for your continued support and engagement. Together, we will continue to strengthen the ties between France and Mozambique and to support the growth and success of our members.

Yours sincerely,

Christophe Beauvais, President
Crystelle Coury, Managing Director

LA CHAMBRE DE COMMERCE ET D'INDUSTRIE FRANCE-MOZAMBIQUE

A proud member of **Team France Export**, the Chamber of Commerce & Industry France-Mozambique (CCIFM) was established in June 2015 as a Mozambican law association. It is part of the **CCI France International network**, which brings together **125 chambers in 98 countries** and represents over 36,500 member companies worldwide, including **25 chambers across Africa** and the Middle East. Today, CCIFM stands as the largest bilateral chamber of commerce in Mozambique in terms of number of member companies.

With a vibrant community of **+125 member companies**, CCIFM plays a central role in fostering business relations between France and Mozambique. Our network counts over 2,800 LinkedIn connections and a dynamic social media presence counting nearly 3,500 followers.

Through our initiatives, we continue to **connect, inform, and support** companies in navigating opportunities in Mozambique and strengthening Franco-Mozambican economic ties.

MOZAMBIQUE AT A GLANCE

Country Overview

Mozambique offers significant economic potential, especially in **energy** (gas, hydroelectricity, solar), **agriculture, mining, transport & logistics, and tourism**. At the same time, the country faces major challenges, including insecurity in Cabo Delgado and persistent poverty. To address these, **economic reforms** have been introduced, such as reducing VAT from 17% to 16% and launching an e-visa system to simplify travel. The government is also actively seeking foreign investment to drive growth.

Covering **800,000 km²** with a population density of 41.3 inhabitants/km², Mozambique ranks **183rd out of 189** on the Human Development Index (UNDP). The national currency is the **Metical** (1 USD = 64 MZN; 1 EUR = 74 MZN as of January 2026). The economy relies mainly on **agriculture** (73.2% of employment), **services** (22.4%), and **industry** (4.4%). Key trading partners include **South Africa, China, and India**.

Key Growth Sectors:

- **Natural Gas:** Major projects include Coral Sul FLNG (ENI, USD 8B), Coral Norte FLNG (ENI, USD 7.2B), Mozambique LNG (TotalEnergies, USD 23.5B), and Rovuma LNG (ExxonMobil, USD 25B).
- **Electricity:** National electrification reached 60% in 2024, with a goal of 100% by 2030. The Mphanda Nkuwa hydroelectric dam (1.5 GW, led by EDF and TotalEnergies) is under development.
- **Mining:** Mozambique has diverse resources, including coal, aluminum, rubies, graphite, and heavy sands.
- **Transport & Logistics:** The country is served by five main ports and three regional logistics corridors.
- **Agriculture:** Contributes 23% of GDP and employs 75% of the workforce.

MOZAMBIQUE AT A GLANCE

Key Economic Indicators

In 2025, Mozambique has a population of **36.2 million**. Its **GDP is USD 22.5 billion**, with a GDP per capita of USD 623. The country's growth rates were **6% in 2023**, **1.9% in 2024** (mainly due to socio-political unrest following the October 2024 presidential elections), with expectations of 1.8% in 2025. Economic growth is projected at 3–5% in the coming years, while **inflation stands at 3.3%**.

Political Context

Mozambique gained independence from Portugal in **1975**, followed by a civil war that lasted until 1992. The **current president, Daniel Chapo**, a member of the **FRELIMO** party (Mozambique Liberation Front), was elected in October 2024 and took office in **January 2025**. He is the **fifth** President of the Republic of Mozambique.

MOZAMBIQUE-FRANCE TRADE RELATIONS

In 2023, bilateral trade between France and Mozambique reached **EUR 130 million**, with a EUR 40 million trade deficit for France. Mozambique mainly exports **precious stones and ferrous metals** to France, while France exports **equipment, including electrical machinery**.

French investment in Mozambique is strong and growing. Major energy players such as **TotalEnergies** (Mozambique LNG gas project) and **EDF** (hydroelectric projects) lead the way, alongside around **50 French company subsidiaries**, including **Technip Energies, CMA-CGM, AGL, Schneider Electric, Bureau Veritas, Saint-Gobain, SotMoz / Vinci Energies** and more.

These partnerships highlight the strategic and long-term economic ties between France & Mozambique, creating opportunities for growth, knowledge transfer, and collaboration across multiple sectors.

2IBI SOFTWARE

Activity sector: IT

Number of employees: 18

Creation date: 2012

General Director: Luis Leal Leonor

ACTIVITY

2iBi Software is a technology company founded in 2012, specializing in the implementation and support to CEID Primavera ERP Software, an ERP localized for Mozambique taxes and rules.

Géosciences pour une Terre durable

brgm

BRGM (Bureau de Recherches Géologiques et Minières)

Activity sector: Mining

Number of employees: 1100 (globally)

Creation date: 2026 in Mozambique

General Director: Alexis Gutierrez

ACTIVITY

Since 1959, BRGM (Bureau de Recherches Géologiques et Minières) has been France's public geological survey and a major international research and consulting organization in geosciences. BRGM provides expertise in geology, mining, groundwater, natural hazards, environmental management, and sustainable resource development. The organization supports governments, international institutions, and private companies with scientific studies, technical assistance, and advisory services.

Its work covers critical topics such as water resources, climate change adaptation, mining governance, and geoscientific data systems. It is recognized internationally as a reference institution in geosciences and sustainable development.

As part of a cooperation framework between BRGM and the Ministry of Public Works, Directorate of Water Resources of Mozambique, BRGM is responsible for conducting a study of an aquifer that could be used to supply water to a district of Maputo (Katembe).

CIS

Integrated Life Support Services

CIS Mozambique

Activity sector: integrated life support services (catering, accommodation, facility management, digital solutions, particularly in remote and logistically challenging areas)

Number of employees: 192

Creation date: 2013

General Director: Vincenzo Costanzo

ACTIVITY

Catering International & Services (CIS) is a French multinational group specializing in the management of life support bases in complex and remote environments – both onshore and offshore. Since its establishment in 1992, CIS has been delivering comprehensive solutions to clients in key sectors such as energy, oil and gas, mining, construction, and public institutions, including governmental and humanitarian organizations.

Operating in over 20 countries with more than 380 sites and a workforce exceeding 16,000 employees, CIS is committed to providing integrated services that ensure the well-being and safety of residents in remote sites, allowing clients to concentrate on their core activities.

In Mozambique, where CIS has been present since 2013, the company offers integrated life support services, including catering, accommodation, facility management, and digital solutions, particularly in remote and logistically challenging areas. CIS Mozambique emphasizes local content, with 99% of its workforce hired locally and 95% of its supplies sourced from local suppliers, thereby contributing significantly to the country's economic and social development.

Over the years, CIS Mozambique has provided services to leading companies and strategic projects, including Vulcan (formerly Vale Mozambique), Coral-Sul FLNG (participating in the country's first offshore gas development), Twigg Exploration & Mining, Coca-Cola, and Cimentos de Moçambique, among other clients. This diverse portfolio highlights CIS's capacity to serve both industrial giants and essential service providers with the same commitment to quality and reliability.

CIS Mozambique is also deeply committed to sustainable development and community engagement. The company has implemented the "Mozambique First" initiative, focusing on local development, inclusive employment, and environmental responsibility. Notable actions include the recycling of used cooking oil into soap, support for Balama orphanage through food and school supply donations, and the distribution of essential food baskets to displaced families from Cabo Delgado.

Additionally, CIS has introduced Virtual Reality (VR) training solutions in Mozambique, enhancing workforce capabilities and safety performance through immersive learning tools.

Through its holistic service offering, dedication to local empowerment, and commitment to sustainability, CIS Mozambique continues to position itself as a trusted partner in the long-term development of Mozambique's industrial and social infrastructure.

DP FINANCIAL PARTNERS

Activity sector: Accounting & Fiscality

Number of employees: 25

Creation date: May 2013

General Director: Pedro Pedras Lourenço

ACTIVITY

DP Financial Partners is a young group of companies supported by consultants with over 15 years of experience in both national and international markets.

Our approach focuses on building close relationships and offering hands-on support to every client. This ensures we deliver the most appropriate solutions to help your business thrive.

DP Financial Partners operates in a market segment that emphasizes a personalized, boutique-style service, creating strong supplier-client connections. We believe in tailored solutions rather than one-size-fits-all models. Each client is thoroughly analyzed and supported with a solution that aligns with their specific expectations and needs.

While our ambitions and physical presence extend beyond local and national borders—with operations in Europe, Africa, and Asia—our teams are dedicated to providing continuous support, advising and guiding clients through the entire management process.

SLB (formerly SCHLUMBERGER)

Activity sector: Energy

Number of employees:

Creation date:

General Director: Victor Reveth

ACTIVITY

SLB (formerly Schlumberger) is a global technology company specializing in services and solutions for the energy industry. In Mozambique, SLB plays a key role in offshore reservoir exploration and characterization, in collaboration with the National Petroleum Institute (INP). It offers an extensive multicient seismic data library covering over 110,000 km of 2D data and 15,000 km² of 3D data, acquired between 2013 and 2018, to support exploration activities in the Rovuma, Angoche, and Zambezi basins.

These data enable a better geological understanding of turbidite systems and facilitate risk reduction for deepwater drilling operations. SLB is also involved in the Enlightenment project, aiming to enhance deep seismic imaging of the Mozambique Channel and Zambezi Delta.

ACTIVITY

Sonepral Mozambique, Lda is the Mozambican affiliate of Sonepral, an international manpower, recruitment and personnel-placement services company originally established in Angola in 2002. Sonepral operates in Mozambique and other African markets to provide specialised staffing solutions, recruitment and company representation services—particularly for the oil, gas, energy and related sectors—supporting both national and expatriate workforce needs. It has positioned itself as a trusted partner in sourcing qualified personnel, with a focus on local content development and compliance with regulatory requirements.

Sonepral Mozambique cooperates with IPAS Group via an operational partnership / joint venture for expatriate workforce management and HR services across oil, gas and industrial projects in the region — with IPAS handling expatriate employment administration and Sonepral focusing on recruitment and local manpower operations

TECHNIP ENERGIES MOZAMBIQUE

Activity sector: EPC, Engineering & Civil Works

Number of employees: +60

Creation date: August 2018

General Director: Julien Larour

ACTIVITY

Technip Energies is a global technology & engineering powerhouse. With leadership positions in LNG, hydrogen, ethylene, sustainable chemistry, and CO₂ management, we are contributing to the development of critical markets such as energy, energy derivatives, decarbonization, and circularity. Our complementary business segments, Technology, Products and Services (TPS) and Project Delivery, turn innovation into scalable and industrial reality.

Present in Mozambique since 2014, Technip Energies strengthen its position with the Coral South FLNG project, Africa's first floating LNG project. In 2018, co-founded the Country's First Engineering Company in partnership with Empresa Nacional de Hidrocarbonetos Logistics (ENHL) through a Joint venture named ETJV. The company employs primarily Mozambicans and actively participates in local skills development of the Industry. In 2024, Technip Energies and JGC Corporation were awarded a Front-End Engineering Design (FEED) contract by ExxonMobil for the Rovuma LNG project, located in Palma, Afungi Peninsula, northeastern Mozambique.

TOTAL ENERGIES

Activity sector: Energy

Number of employees:

Creation date: 2019

Country Chair: Maxime Rabilloud

ACTIVITY

The Mozambique LNG project is a large-scale onshore liquefied natural gas (LNG) development located in Cabo Delgado province, Northern Mozambique, in Offshore Area 1 of the Rovuma Basin. Operated by TotalEnergies with a 26.5 % stake, the project includes offshore gas fields (Golfinho and Atum) and an onshore liquefaction plant with an initial capacity of 13.1 million tonnes per year, expandable in the future.

With an investment estimated at around USD 20 billion, Mozambique LNG is one of the largest foreign direct investments ever made in Africa and is expected to position Mozambique as a major global LNG exporter. After being suspended in 2021 due to security concerns, the project resumed in 2026, with first LNG production targeted around 2029.

Beyond energy production, the project aims to generate significant economic benefits for Mozambique, including thousands of jobs, major contracts for local companies, and large-scale community development programs in Cabo Delgado.

Mozambique LNG is a JV formed by TotalEnergies EP Mozambique Area 1 (26.5%, operator), Mitsui E&P Mozambique Area 1 (20%), ENH Rovuma Area Um (15%), ONGC Videsh Rovuma (10%), Beas Rovuma Energy Mozambique (10%), BPRL Ventures Mozambique (10%), and PTTEP Mozambique Area 1 (8.5%).
