

AI for Recruitment Training for Luxury Hotels HR

Date: July 29, 2026	Location: Bangkok (exact venue provided upon registration)
Time: 3:00 PM – 6:00 PM	Language: English
Fee: Free (Approval Required)	Facilitators: Stephane, Gonzague & Mishari

Course Description

This intensive 3-hour training, developed by System in Motion and Shi Bisset, is designed for established luxury hotel organizations ready to transform their recruitment function. Move beyond basic automation and learn how to strategically apply AI to talent sourcing, candidate screening, employer branding, and candidate engagement.

Through practical exercises and real-world examples, participants will gain actionable skills to build a smarter, faster, and more effective hiring process that directly supports business objectives.

Why Attend?

<p>Elevate Your Employer Brand</p> <p>Create AI-assisted communications that consistently reflect your organization's unique value proposition.</p>	<p>Reduce Time-to-Hire</p> <p>Significantly decrease screening and administrative effort while improving candidate quality and fit.</p>
<p>Mitigate Unconscious Bias</p> <p>Leverage structured, AI-enhanced recruitment processes to support more diverse talent pipelines.</p>	<p>Gain a Competitive Advantage</p> <p>Identify, engage, and secure top talent faster than competitors through greater efficiency and insight.</p>

What You'll Learn

AI for Intelligent Role Design & Sourcing

- Use AI to analyze successful role profiles and generate data-driven job descriptions.
- Identify and engage passive candidates across multiple channels using AI-powered tools.

AI-Powered Screening & Shortlisting

- Develop consistent and objective screening criteria.
- Automate initial resume and portfolio reviews to identify the most qualified applicants.

AI-Optimized Candidate Communication & Interviewing

- Create personalized candidate communication journeys.

- Generate role-specific interview guides and question banks with AI support.

Who Should Attend?

- HR Directors
- Talent Acquisition Leaders
- Recruitment Specialists
- HR Professionals in luxury hotels seeking to modernize their hiring practices

Learning Outcomes

By the end of the training, participants will be able to:

- Design compelling role briefs informed by AI-driven market insights.
- Implement an AI-augmented screening process to efficiently identify top talent.
- Build a consistent and branded candidate communication strategy.
- Create a more efficient, equitable, and effective recruitment function.
