

DANSK-FRANSK HANDELSKAMMER
CHAMBRE DE COMMERCE FRANCO-DANOISE

ERASMUS PLUS Envol Pro CSR Program

Goal: Supporting jobseekers in their search for quick employment /reemployment by giving them an experience abroad and strengthening their English.

About the program

The Danish-French Chamber of Commerce has signed a partnership with the French agency of Paris Charles de Gaulle Alliance, in order to allow French jobseekers to do internships in Denmark as a way of improving their English skills.

About the candidate profile

The profiles are diverse and can vary from manager to waitress, within all sectors. Equally, the levels of English are very different between candidates. Our current profiles, however, hold a level of English where they can apply it in a correct professional setting.

What is the Chamber's role?

- Defining the profile of candidates in cooperation with you.
- Educating the interns upon their arrival in Copenhagen.
- Serving as a link between you and the interns.
- Managing their housing and transportation to and from the internship. An apartment is provided the interns, a few metres from the train station of Skovlunde.

An innovative CSR initiative between the
Chamber of Commerce and
partner companies

What is your role?

- Offering a suitable internship of three months to jobseekers.
- Allowing for them to improve their English skills.

What are your advantages?

- Participating in a CSR action by welcoming job seekers and boost their chances for fast reemployment.
- An internship free of charge for your company (no pay or insurance required).
- Management and reception by the Chamber.

Please contact us to learn more about
the program and the process.
