PROFILE

As a fourth-year engineering student with a specialization in vehicle mechanics, I have acquired technical expertise in the automotive field through my academic and associative projects. Passionate, methodical, and possessing a rigorous analytical approach, I am seeking an internship in logistics/supply chain to enhance my skills and continue towards a master's degree in this field next year.

ASSOCIATIVE EXPERIENCES

ESTACA Moto-Tech

Sept 2022 - Now

Montigny-Le-Bretonneux, 78180

Treasurer

Designed and Manufactured an Electric Sports Motorcycle based on a Yamaha R6

- Led a 3-year student project for the conversion of a gasoline-powered vehicle to electric
- Managed the finances and expenses related to the association's projects
- Solicited industrial and corporate sponsors for funding

Prepared a Yamaha R125 and a Honda CRF 450 for enhanced performance

- Assembled mechanical and electrical components of the motorcycles
- Participated in endurance races with the Yamaha R125 (race strategy, repairs) and hill climb races with the Honda CRF

ESTACA Formula Team

Sept 2021 - Sept 2022

Montigny-Le-Bretonneux, 78180

Powertrain Member

Designed and built a single-seater vehicle for participation in Formula Student

- Developed an oil pan to prevent oil starvation in the engine

PROFESSIONAL EXPERIENCES

L'hermine

June 2023 - Aug 2023

Saint-Briac, 35800

Server

Artisanal Creperie

- Set up for service, greeted customers, and ensured smooth communication between the kitchen and the dining area.
- Managed supplier relationships, maintaining accuracy in order reception and systematic organization of refrigerated storage.

Stellantis

July 2021 - Aug 2021

Poissy, 78300

Vehicle Production Line Operator

Factory Worker Internship in an Automobile Production Plant

- Manufactured vehicle body parts.
- Ensured the quality of the produced parts, combining technical precision and attention to detail to meet the company's strict standards.
