Spanish 

SKILLS

- Water management
- Hydraulics
- Hydrology
- Microsoft Office (Word, Excel)
- GIS (QGIS, ArcGIS)
- Team work
- Rigor

ACTIVITIES AND INTEREST

- Outdoor activities (hiking, bicycle)
- Travel
- Participation into an environmental preservation association

PERSONAL STATEMENT

Just graduated as water and environment engineer, specialized in hydrosystems. I have strong attachment to the environment. I would like to be a local actor in water management. I have acquired knowledge in hydraulics, hydromorphology and wetlands.

EXPERIENCE

Graduation internship

CLEDA, Saint-Bonnet-en-Champsaur | 2023 (6 months)

- Gauging and analysis of the CLEDA's hydrometric measurements.
- Study of the evolution the hydrological regimes of the upper Drac river sub catchments.
- Reinforcement of the CLEDA's knowledges about the catchment (local goals of the water management).

Engineering and research internship

Swedish University of Agricultural Sciences, Sweden | 2022 (3 months)

- Sampling and analysis of water and air in peat soils for mercury concentrations.
- Analysis of these results.
- Contribution to the research led by the SLU.

Kitchen crew member | Seasonal job

McDonald's, Saint-Laurent-des-arbres | 2019-2020

- Multi-skilled employee, mainly assigned to kitchen.

EDUCATION

Master's Degree – Engineer in water management and preservation of the environment

ENGEEES, Strasbourg | 2020 - 2023

Semester of exchange – Master in integrated management of hydric systems

Univarsity of Cantabria, Spain | 2022 - 2023

Physics, Mathematics and engineering intensive preparation program for the national competitive entrance exam to engineering schools

Fédéric Mistral High School, Avignon | 2017 - 2020
