RELEVANT ESIA & RAP EXPERIENCES

Senior staff and lead consultants of Ecoscience & Engineering Ltd have extensive experience in undertaking Environmental and Social Impact Assessment, audits and project management services. The firm works with diverse clientele in the provision of Environmental Health and Safety Services to various industry categories including infrastructure, agricultural, transport, manufacturing, Oil and Gas among others.

Our professional team comprising of engineers, environmental scientists, sociologists surveyors, land economists, planners among others have extensive experience in the diverse fields of their specialization. Our multidisciplinary approach to our projects ensures quality output that meets or surpasses our client's expectations and gives value for their money. The Lead Consultant, Philip Abuor is an Environmental Scientist with over 20 years' experience in Environmental Health and Safety assignments in Kenya and East Africa Region for various infrastructure projects including roads, energy, infrastructure and waste management projects. He also has extensive knowledge in international environmental standards including ISO 14001, IFC Performance Standards, World Bank Guidelines and the Kenyan Legislative requirements. Our Team Leader of Resettlement Action Plan (RAP) is Margaret Ngina, experienced Sociologist in Kenya and East & West Africa in various road projects (KeNHA, KeRRa), funded by World Bank, UN and EU and other International Financiers with highest ESHS Standards.

The tables below outline relevant selected projects that Ecoscience & Engineering Ltd Consultants have implemented in Kenya and which highlight majorly the experiences in Environmental and Social Impact Assessments and Resettlement Action Plan & Environmental Monitoring.

RELEVANT SERVICES CARRIED OUT THAT BEST ILLUSTRATE QUALIFICATIONS
