

Arena H2Cluster

The Norwegian Hydrogen Cluster

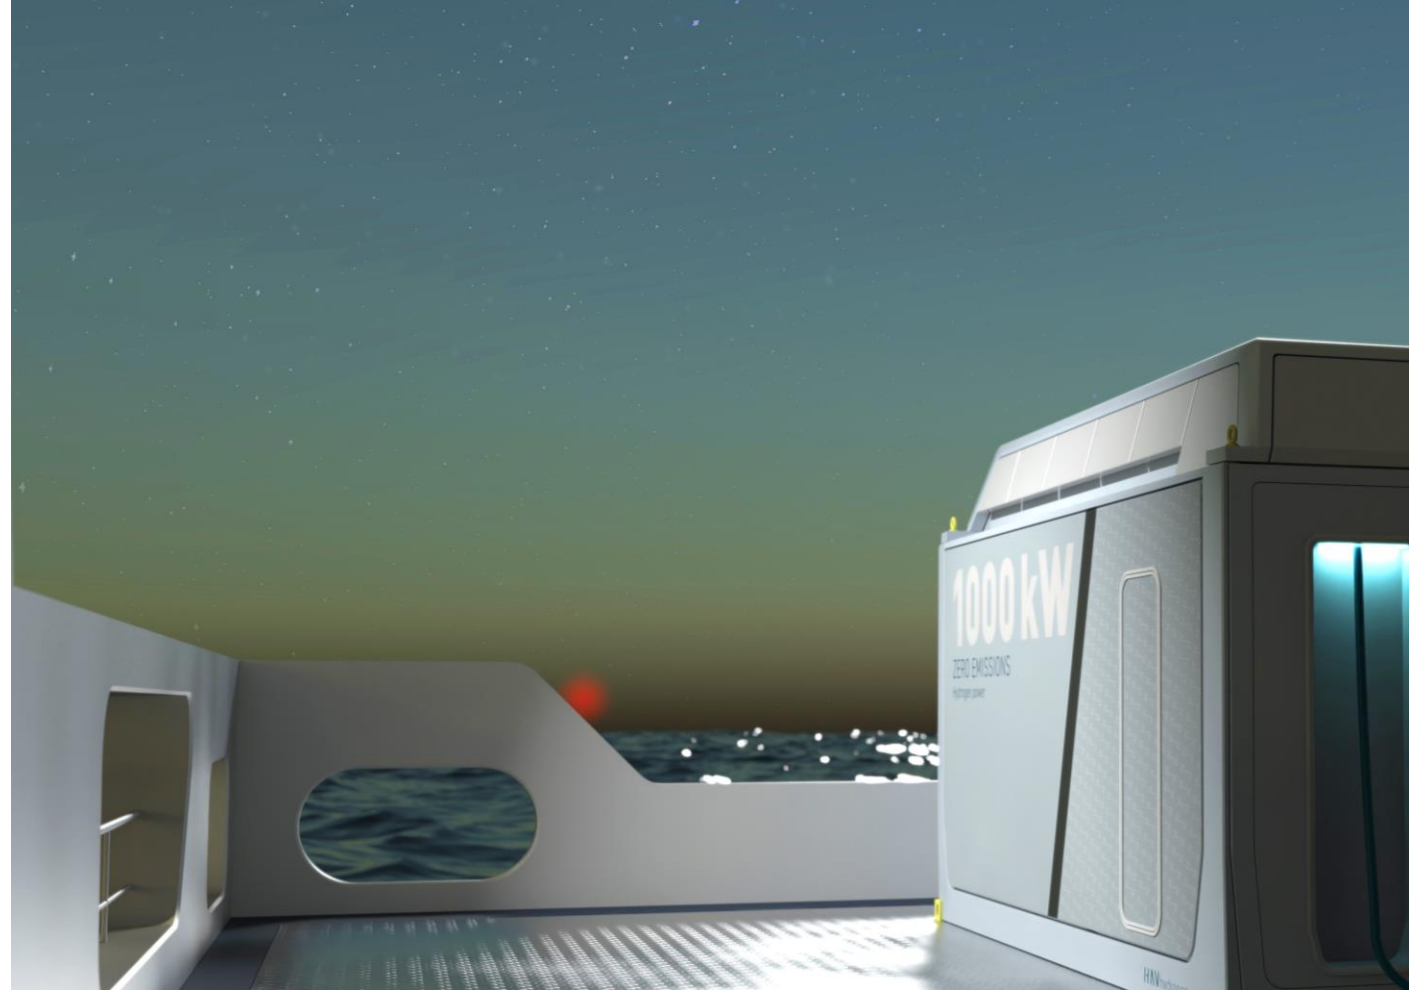

Bjørn Ottar Elseth
Cluster Director

The Norwegian hydrogen heritage goes back almost 100 years.

Norway has great opportunities

- Unique energy resource base for hydrogen
- Growing hydrogen cluster
- Owners and capital environments
- Political support

Potential for strong «hydrogen multiplier» from important Norwegian industries that need hydrogen to cut emissions and increase competitiveness - as the maritime and process industry

Large investments from the major industrials

Norwegian hydrogen ecosystem

Producers						Storage/transportation/distribution			End users			

System & equipment providers

R&D
