

The business – Husson – Your project

Our business

Husson International specialises in designing and manufacturing **playground equipment, sports equipment, street furniture and grandstands**. Its ambition is to welcome **all users** of its infrastructures under the **safest and most comfortable conditions**.

Our vocation

To contribute actively to **improving quality of life** in tomorrow's cities and regions while meeting **public expectations**.

The business – Husson – Your project

Based in Alsace

Family-owned

Founded in 1920

European leader in metal frame playground equipment.

Our DNA:

- Safety
- Solidity
- Sport-focused
- Quality
- Modularity
- Environment
- Innovation

3 significant figures:

- €20m turnover
- 30 countries creating international presence
- 1,000 installations every year

68500 LAPOUTROIE (HAUT-RHIN), FRANCE

Our expertise – Human resources – Facilities

Multi-specialist expertise!

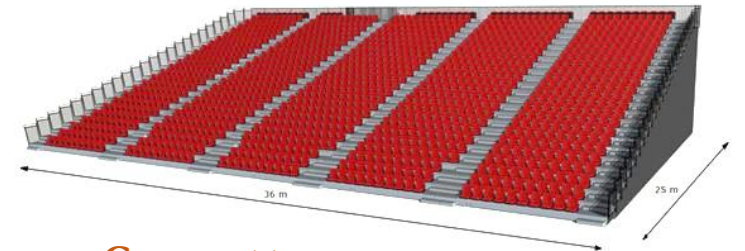

**PLAYGROUND
EQUIPMENT**

STREET FURNITURE

MULTISPORT FACILITIES

GRANDSTANDS

Our expertise – Human resources – Facilities

A team of **100 employees** ready to do everything to satisfy the customer.

- A sales force of **15 field sales representatives** in France.
- A department dedicated to **Export**.
- Production facilities with more than **60 specialists**.
- A **Research & Development & Design** department, the key to our success.
- **Approved Husson installers** throughout France.

Our expertise – Human resources – Facilities

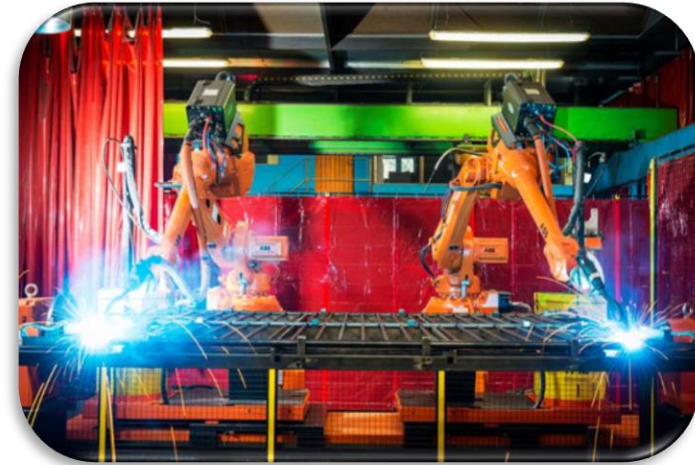

Highly automated and environmentally friendly manufacturing (ISO 9001 & ISO 14001 certification).

22,000 m² of buildings

50,000 part numbers

900 tonnes of steel processed and hot-dip galvanised

6,900 m² of melamine boards (HPL*)

Laser cutting

Welding robots

Digital bending machine

HPL* machining centre

Automated thermo-lacquering line

HPL*: high pressure laminate (15 mm of superimposed kraft paper) particularly hard and resistant to the harshest climates and vandalism (nonflammable).

l'Ameublement français Urbain

Materials – Tamperproof system – Manufacturing

Source of our raw materials:

Steel & Wood ⇒ Mainly Northern Europe

Stainless steel ⇒ France and Northern Europe

HPL ⇒ France, Italy and Austria

Powder coating ⇒ France

Cast steel and aluminium ⇒ France

Plastic ⇒ Our manufacturing plant in Cernay (Haut-Rhin)

The undeniable qualities of our materials:

- ⇒ Very high **resistance to** temperature variations and vandalism, such as abrasion (nonflammable).
- ⇒ 100% **recyclable** and **sustainable**.
- ⇒ Very **simple** and **economical maintenance** (repaint every 10 years and graffiti easy to remove).
- ⇒ Our materials can support up to **1 tonne/m²** (compared to 333 kg in the standard!).

Wood*: Sourced from ecologically and responsibly managed forests, the wood we use is exclusively for our street furniture.

7

Materials – **Tamperproof** – Manufacturing

An exclusive assembly system

Made of thermo-lacquered cast aluminium.

Identical vandalproof stainless steel bolts used across the entire Husson range.

Patented “Multi-D+” multi-directional clamp system.

Quick and easy assembly
Clean design lines
Improved solidity by using double clamps.

Materials – Tamperproof system – Manufacturing

Exceptional surface coating

Hot-dip galvanising

Coating by immersion in a bath of molten zinc at 450 °C.

Deposition of zinc to protect the steel.

Thickness deposited approx. 80 µm

Benefits:

Unmatched durability and long service life.

Technically very reliable and efficient.

Environmentally friendly.

Materials – Tamperproof system – Manufacturing

Thermo-lacquering with powdered polyester

Specific mechanical treatment for preparation and adhesion of the steel.

Robotic electrostatic spraying of polyester powder.

Oven-baking at 210° to polymerise the powder.

Thickness deposited
approx. 100 µm

Benefits:

Architectural quality paint.

Particularly impact-resistant finish.

Perfectly uniform coating.

Environmentally friendly (closed loop application with no emissions).

Safety – Certifications – A few references

Safety must be **as high as possible**, for our customers and for our users!

True to Husson International’s tradition of “**high safety and legendary solidity**”, all our equipment naturally **complies** with the most stringent standards (European standards EN 1176 and EN 1177).

Continuously improving the solidity and ergonomics of our structures pushes our safety focus to the limit.

A **QUALISPORT-certified** company for more than 10 years!

Safety – Certifications – A few references

Corporate social responsibility, a **positive economic impact** on the region.

Local **redistribution**

Minimum legal age required

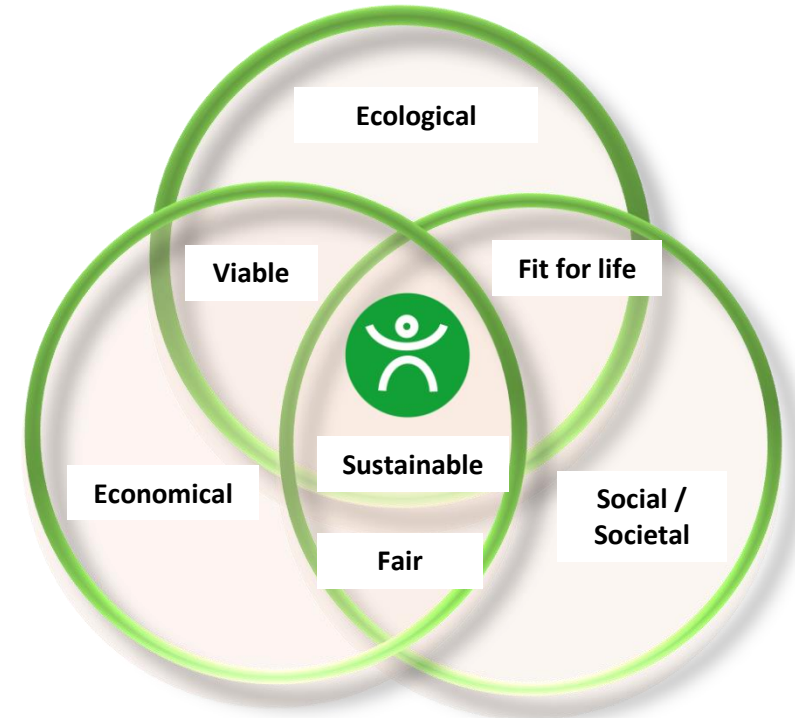

No use of **forced labour**

Wages rising

No **discrimination**

Freedom of **association**

Protection against harassment

Safety – Certifications – A few references

A company that **preserves the ecosystem** by minimising its environmental impact.

- Welding fumes recovery system.
- Surface treatment using powdered polyester with no emissions to air or water.
- Our main component (steel) is an infinitely recyclable material.
- Our waste is sorted and then recycled following several procedures.
- Most of our products are factory-assembled to reduce packaging as much as possible.

Safety – Certifications – A few references

A company that seeks to **improve efficiency** and **increase customer satisfaction**.

- Recording performance and committing to effective actions to advance continuous improvement.
- A risk-based approach to eliminate all potential hazards.
- “Documented information” controlled and retained for the company’s processes to operate correctly.

Why choose Husson International?

Trusting the Husson project means:

- ➔ Choose an innovative product 100% made in Alsace, manufactured by a family business!
- ➔ The advantage of a single contact person: Husson International, from design to opening!
- ➔ Opt for ultra-modular and customisable equipment!
- ➔ Guarantee that the requested deadlines are met!
- ➔ Select a globally recognised manufacturer for the most solid products on the market!
- ➔ Work with a company aligned with environmental approaches (ISO 14001)!
- ➔ Commit yourself to a continuously improving business (ISO 9001)!
- ➔ Choose a socially responsible company with no benefit from investment funds!
- ➔ Rely on an experienced and qualified company (QUALISPORT certified)!

Husson International, supporting people everyday...
