

+1.1°C between 2011 et 2020

Data from IPCC (Intergovernmental Panel on Climate Change) reports

PROBLÈMES

Rising
temperatures

Increase in
CO2
emissions

Meteorological risks

Increase in
disappearance
and extinction
of species

IMPACTS

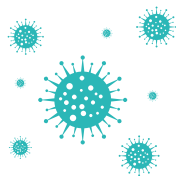

Decline in water
quantity and
quality

Rising prices and
food insecurity

Increase in
invasive alien
species

Increase in
allergies and illnesses

Decline in crop yields
and nutritional quality

WHAT CAN I DO?

Let's take action together!

Take part in La Fresque du Climat to find out more about the subject and the resources available to you.

This workshop, which is free for members, is brought to you by CCI France Netherlands.

WHAT IS IT ?

“Climate Fresk” is a scientific*, collaborative and creative workshop designed to raise awareness of climate change in a fun way.

Taking part in this workshop raises awareness of the **complexity** of climate change, **gives an overview** of this vast issue and provides **the keys to understanding** how to take effective action.

* all the data used come from GIEC reports

HOW DOES IT WORK ?

A pack of cards
Climate Fresk

3:30 of workshop
to think, to create
& to share

1 animator

A team of
7 players

WORKSHOP SCHEDULE

The players have cards representing the different climatic components and work together to find the **links between cause and effect** by positioning and linking them.

The facilitator supervises the team, guiding them through the workshop, ensuring good communication and providing additional explanations.

4 PHASES OF THE WORKSHOP

- 1 1h - REFLEXION
- 2 1h - CREATIVITE
- 3 15' - RESTITUTION
- 4 45' - DEBRIEF

WHY TAKE PART ?

As fossil fuels run out and the environmental crisis, the climate is one of the major challenges of the 21st century.

At any age and in any context, everyone needs to be trained in the scientific basics of the climate so that they can **understand the situation, decipher the information, form an opinion** and **take action**, both collectively and individually.
