

## *Security and people flow management*

*How will you verify the effectiveness of your physical distancing measures?*

*How will you ensure the safety of people in a place open to the public?*

*At ACOREL, for 30 years, we have the tools for that. Please have a look at our solutions [HERE](#)*

*With our sensors, distance badges and software, we provide you with accurate information on physical distancing.*

*It provides not only a real-time alert for on-site operations, but also historical data to prove that you have taken the right measures to comply with barrier gestures.*

## *Counting*

---
