i *The General Assembly of the Chamber is an important event in the work of the French-Serbian Chamber of Commerce. It is an annual meeting of the organization's members where key topics and decisions related to its functioning are discussed. At the General Assembly, members have the opportunity to be informed about the organization's achievements during the previous period and to discuss plans and goals for the future. Financial reports are adopted, proposals for amendments to the statutes or other important documents are considered, and key decisions for the further development of the organization are made. This year, members of the Board of Directors of the CCIFS will be elected at the General Assembly. This event also provides a platform for open exchange of opinions and ideas among members.
