

# Startups' Next Stop: TAIWAN

Discover Your Partners, Investors, and Markets  
in Taiwan within 14 days!

**Are you devoting to the electric or  
autonomous vehicle related fields and  
looking for investors?  
→ If yes, Taiwan is your answer.**

## WHY TAIWAN

With strong industry infrastructure and flexible supply chain, Taiwan has continued to be one of the manufacturing and ICT powerhouses in the world and also taken a more open and dynamic approach to support startups' development. According to StartupBlink 2020 Ecosystem Ranking Report, Taiwan was ranked 7th in Asia-Pacific for its incredible ecosystem for startups.

## 2035 E-Mobility Global Demo Day

The 2035 E-Mobility Global Demo Day startup pitch competition aims to scout startups that engage in the electric and autonomous car sector to win the

opportunities to meet the investors in person or online and be part of the global EV ecosystem. Join us to turn your ideas into reality and expand to Taiwan and the Asian Markets.
