### Chirstophe Darmois Chairman of the French-Tanzanian Chamber

### Dear readers,

It is with immense pleasure and gratitude that I address you today. As I look on the past year, I am filled with pride for what we have accomplished together and excitement for the path ahead.

First and foremost, I must express my heartfelt appreciation to each and every one of our members for their continuous trust in our Chamber. Their dedication to improving commercial relations between France and Tanzania is genuinely admirable, and it is the driving factor behind our success. I would also like to thank the FTCC staff for their tremendous work which enabled the Chamber to expand.

Over the last year, our Chamber has experienced substantial growth and development. We have welcomed new members to our organization, expanding our network and strengthening our collective voice in the business community. I am pleased to say that we now have 76 members, demonstrating our peers' faith and confidence in us.

But our achievements don't stop there. In 2023, we took strong steps to improve our services and capabilities, establishing the framework for continued success in the years ahead.

2023 has therefore been a productive year for the FTCC with the launch of new services for its members. We have hosted 2 VIE (International Business Volunteer) from France and accommodated them in our office; work and resident permit, wage portage and office rent is part of the services provided for them. A country brief and a discovery pack has also been made available for investors interested in Tanzania. Another service launched in 2023 is the Duo Mentoring program with Sahara Ventures, that connects Tanzanian entrepreneurs with experienced executives. The purpose is to provide valuable industry insights, networking opportunities and guidance for their growth.

In terms of communication, the registration form has been digitalized and we have launched an onboarding letter to new members to guide them to take fully

advantages of the benefits of being part of the Chamber. Also, 2 newsletters were sent to keep members and partners up-to-date on all the activities of the FTCC.

On the 23th and 24th of February 2023, the FTCC participated to the EU-Tanzanian Business Forum and was honored to welcome to its booth the Minister Delegate for Foreign Trade, Attractiveness and French Nationals Abroad, Olivier Becht, as well as the Ambassador of France Nabil Hajlaoui. The visit of Olivier Becht reflects a testament to the efforts made to boost bilateral economic relations between France and Tanzania. Overall, the Business Forum was an incredible opportunity to meet European investors and build new connections.

2023 also marked the move into our new office at ZO Spaces and the nomination of Aurélie Le Page as the new Director of the Chamber. We also had the chance to welcome 2 interns to support the Chamber in its daily activities.

The FTCC signed two new partnerships with the Mauritius Chamber of Commerce and Industry (CCI France Maurice), allowing members from both chambers to attend each other's events free of charge and grants them free access to each other's offices for a day, and ADIM, a French development and innovation agency, in order to promote trade between Tanzania and Mayotte.

We have remained committed to our core mission of fostering collaboration and cooperation between French and Tanzanian As the first French-Tanzanian economic businesses. network, we have a unique opportunity to make a meaningful impact on the economic landscape of both countries. By opening our doors to new companies and forging new partnerships, we will continue to strengthen our collective influence and drive positive change.

We have made incredible progress together, and we will keep dreaming, inventing and succeeding as a team. Thank you for your continued support, and here's to another year of growth, prosperity, and collaboration.
