

French Red Cross Gala Dinner in Ukraine

2018

The primary goal of the Red Cross is the prevention and alleviation of human sufferings, and the contribution to the maintenance of human dignity.

The Red Cross counts on international solidarity to be able to effectively support people who face disasters, conflicts, social and health difficulties.

The Gala event has become a demonstration of the solidarity of the business community with the people of Ukraine.

All the funds raised by the Gala are devoted to support the French Red Cross activities in assisting internally displaced persons in Ukraine.

Thank you to all donators, sponsors and participants for making this 2018 edition a real success, and for helping the Red Cross help people in need.
