OBJECTIVE:

I am searching for a 3 month business centered internship where I can utilize and further develop my experience in marketing, collaboration, and communication. I am an extremely quick and eager learner fluent in French and English as well as speaking beginner level Spanish. I am a loyal hard working individual with 3+ years with the same employer where I was quickly being promoted to a managerial position. I am also a diligent student with one bachelor's degree already under my belt and a second one nearly completed. I have held this managerial position and been in college full time all while learning teamwork and rigor as a semi-professional level starting volleyball player for National 1 competition / UGSEL French champion in Lyon. I believe all of these skills and experiences would make me a valuable asset to your company.
