About Passport to France...

The 38th edition of Passport to France is a culinary journey to France, showcasing many of Chicagoland's most refined French foods, wines, and spirits. This year's program will feature a keynote conference and exchanges with French companies in their fields. In addition, Passport to France is an annual tribute to the relationship between the United States and France and aims to strengthen it. Our attendees include CEOs, business executives and entrepreneurs in the French-American business community.
